

I am writing to urge you to reject NAB's petition 04-160. I spend many hours a day in the car traveling to construction sites. I need the traffic and weather from different cities all over Florida and I need it commercial free. I don't have time to listen to the radio all day to find out what the traffic is like or mess with the dials to find a station that even reports traffic. I need to tune in plot my course and go. I pay a fee to have this priviledge and NAB should not be able to tell me what I can or can not listen to. Satellite Radio reports are crucial to my business and are a huge part of my everyday life.
